The Council of the City of Thomasville met in regular session with Mayor Hobbs presiding and the following Councilmembers present: Mayor Pro-Tem Sims, Councilmember Beverly, Councilmember Flowers and Councilmember Scott. Also present were the City Manager/Utilities Superintendent, Steve Sykes; City Attorney, Tim Sanders; Honorary Councilmember, Pastor Rick Monroe; other staff; members of the press and citizens.

Mayor Hobbs called the meeting to order. Councilmember Flowers gave the invocation. Mayor Pro-Tem Sims led those present in the Pledge of Allegiance.

On motion of Councilmember Scott, and seconded by Councilmember Beverly, the minutes of the regular meeting held October 9, 2017 were unanimously approved as presented.

Mayor Hobbs opened the meeting to citizens to be heard on non-agenda items. Mr. Gary Florent, 138 Rachel Lane, Thomasville, Georgia, addressed Council. Mr. Florent commended Mayor Hobbs for “boots on the ground” in reference to recent rains and the drainage issue of Rachel Lane. Mr. Florent cited several passages from the 2005-2025 Thomasville Comprehensive Plan regarding requirements of developments for landscaping and greenspace; protection of municipal trees and clear cutting; and housing density. He expressed concerns that this plan has not been followed in reference to Market Station Apartments development. Mr. Florent expressed additional concerns regarding representative government and public input.

Mayor Hobbs noted that there would be greenspace provided by the developer for this project, citing it was part of the stipulations put in place for the development. He also noted it is not the responsibility of Council to determine placement of buildings on property, this is done by the ordinances currently in place.

Mr. Barry Cone, 128 Rachel Lane, Thomasville Georgia, also addressed the Council with further concerns regarding the development. He also commended the efforts of those who assisted during the rain event on October 22, 2017. Mr. Cone noted in reference to the agreement addressing contractor work at undesirable hours, Rachel Lane residents were told to contact the police if problems continued after 7PM. Residents have done this and the Police Department explained the Police could not enforce this issue.

Chief Building Official Harmon addressed Council and Rachel Lane residents present. He noted that, as was discussed during the on-site meeting, there was an honorary agreement with the construction manager to reduce the hours of operation of construction work. He further noted that most of the Rachel Lane residents have his cell phone number to address issues as they arise and he has not been contacted. Chief Building official reported that he has conversed only with Ms. Bailey and Chris Hall, at which times their issues were addressed immediately. Chief Building Official Harmon stated that to his knowledge the builder has been compliant to the best of his ability and further noted that he could not address issues for which he was not notified of when they take place. Chief Building Official Harmon stated he would give his contact number to those who wished to contact him.

Ms. Yvonne Stinson addressed Council. She stated she did not wish to give her address publically, as she did not want to have the same issues Ms. Bailey has had following her published address. In reference to the recent newspaper article, Ms. Stinson agreed that storm water has always flowed through the Rachel Lane area; however, it has done so in a gentle manner – not the raging river that is currently present. She noted the amount of rain during Tropical Storm Faye did not create an issue even similar the current drainage issue. Further citing the same article, she expressed concerns of Rachel Lane residents potentially having to hire attorneys at their expense for civil action to address damage claims. City Manager
Sykes explained that property owners who have any damage to their property as a result of the development must file those claims with the builder. He further explained that it is the responsibility of the builder to address any claims filed as a result of construction; and this is done through the builder’s insurance. It was noted that Ms. Bailey had the builder’s contact information and if she did not the City would obtain it and provide the information to Rachel Lane residents.

Ms. Morgan Bailey addressed Council and suggested the City change their policy for requesting/providing home addresses as she has had to take precautionary measures to address her safety following the publishing of her address in the recent newspaper article. Ms. Bailey reiterated concerns regarding privacy issues resulting from the development of Market Station Apartments and noted that issues of zero-foot setback, fencing requirement, tree/landscaping, the gentlemen’s agreement with the construction manager and current safety issues are unacceptable from the City of Thomasville in regard to this development. In reference to the zoning ordinances, City Manager Sykes noted that staff is not authorized to require more than the ordinance allows. He noted changes for issues such as those must be appealed through the proper processes of the Zoning Appeals Board.

Mayor Pro-Tem Sims reiterated that the development would not receive a Certificate of Occupancy (CO) form the City of Thomasville until a permanent solution to the drainage issues was in place and working properly. City Manager Sykes noted the current storm water ordinance does offer flexibility in how to address water retention; however, it was not the responsibility of the City of Thomasville to design the developer’s storm water program for them. Mayor Hobbs noted that the temporary solution in place has helped the current drainage issue.

There being no further discussion, Council moved on to the agenda.
