Policing the "RIGHT" Way

Central to our mission are values that guide us in making the "RIGHT" decisions and help us contribute to the quality of life in Thomasville. In striving to make the "RIGHT" decision we value:

Respect - All persons have the RIGHT to be treated in a fair, dignified, courteous and equitable manner. We take an active role in understanding and working within the great diversity of our community. Further, we identify special needs as related to cultural, ethnic and socioeconomic diversity and respond in an appropriate manner.

Integrity - Common trust marks the basis of integrity. We hold ourselves to the highest of moral and ethical standards.

Goals - We are a goal oriented organization, with clearly defined objectives. This clarity enables us to maintain a constant evolution of service within our community. The ability to set goals gives us a common objective to strive for within our community, allowing for a unified, organizational focus and a dynamic level of service. We continuously evaluate and adjust our goals based on the current needs of the community.

Honesty - To live a "Justinian" or just life means to live honorably, with credibility and virtuosity. These qualities form the foundation of our philosophy of "Community Oriented Policing" which is also how we evaluate our ability to protect and serve to our community.

Teamwork - The central element to a well-functioning organization is teamwork. We fully embrace the building of partnerships within the community and internally among our members. By working together as a team, the quality of life in Thomasville can be improved and maintained.

Assistant Chief Rich

2012 proved to be another successful year for the Thomasville Police Department. As the Assistant Chief, I am responsible for leading the operations of the department which includes both Uniform Patrol and Criminal Investigations. These divisions are constantly striving to improve the safety, security, and quality of life for all of our citizens and visitors of our great community.

As you read through these reports, keep in mind that they serve as snapshots of our team's activities. This is just a glimpse of how our officers positively affect our community; our community always comes first.

Every division, team and officer is tasked with developing new goals each year which they use as a bench mark of the year's success. These goals are developed to remain tangent to TPD's overall mission: To improve and maintain the quality of life within our community by working together to achieve a common goal: a safe and secure city.

A new initiative implemented in 2012 was the Text a Tip program. Traditionally law enforcement had to overcome witnesses who feared retaliation for talking to police. However with the text a tip texting programs, police never see the tipster's name or telephone number. The text messages are sent to a separate, third-party server, where identifying information is removed and they are assigned an encrypted alias before being sent to police. Communication between law enforcement and citizens is a key component in fighting crime. Today many people are comfortable with texting as a form of communication.

Our community should be proud of our officers within the TPD. These officers are fully committed to serving and protecting the lives of all citizens. Our officers serve as the solid foundation of the Thomasville Police Department and we are proud to have them serve our community.
